

GALI SUBHASHINI

subhashinigali22@gmail.com Ph: 6309751155

SUMMARY

Aspiring Cybersecurity Professional with knowledge of cybersecurity, malware analysis, and network security. Eager to learn, analyze security threats, and contribute to protecting organizational systems.

PROJECTS

Malicious URL Detection Using Ensemble Learning

- Developed a machine learning model using **Random Forest** and **XGBoost** to detect malicious URLs with **93.2% accuracy**.
- Processed and analyzed **6,500+ URLs** using **Python, Pandas, and Scikit-learn** based on features like URL length, IP usage, and special characters.

Web Application Vulnerability Scanner using Nmap and Nikto Tools

- Developed a Python-based scanner integrating **Nmap** and **Nikto** for vulnerability assessment.
- Identified **open ports**, exposed services, and common **web vulnerabilities**. Improved understanding of attack surfaces and **security assessment methodologies**.

Detecting Fileless Malware Through Memory Analysis with Deep Learning

- Developed a deep learning-based framework to detect **fileless malware** by analyzing volatile memory (RAM) dumps using **memory forensics techniques**.
 - Applied image preprocessing and **ResNet-18**-based classification to distinguish malicious and benign memory patterns, improving **malware detection accuracy**.
-

EDUCATION

B Tech, CSE, BVRIT | 2023 – 2026
CGPA : 8.01

Diploma, CME, GPWS | 2020 – 2023
CGPA: 8.9

SSC, Fr. Francis Memorial High School 2019 - 20

GPA : 10

TECHNICAL SKILLS

- **Cybersecurity:** Incident Response, Log Analysis, Malware Analysis, Network Security, Vulnerability Assessment
 - **SIEM:** Splunk (Basic), Microsoft Sentinel (Basic), SIEM Architecture
 - **Querying:** KQL (Basic), SQL
 - **Security Tools:** Wireshark, Nmap, Burp Suite, Nikto, Snort IDS, OWASP ZAP, Metasploit, VirusTotal
 - **Operating Systems:** Linux , Windows
 - **Programming:** Python , Java
 - **Security Concepts:** TCP/IP, DNS, HTTP/HTTPS, Firewalls, Phishing, SQL Injection, XSS, IOC Analysis
-

CERTIFICATIONS

- **Certified Ethical Hacker (CEH)** – EC-Council
- **Malware Analysis Fundamentals** – EC-Council
- **Foundations of Cybersecurity** – Coursera
- **Play It Safe: Manage Security Risks** – Coursera
- **Hackfinity Battle** – TryHackMe
- **Soft Skills** – NPTEL
